1.4

Special Forces

A Shockproof Phone Case Preferred By Military Fans

More Information

1. TPU+PC hybrid shockproof structure
2. More patterns with different themes can be printed
3. Special UV three-dimensional printing technology, the tactile is more special

1.5 IMD Case

Basically OEM Orders Accepted Only

The Style Mainly
Recommend

More Information

1. We are one of the few large factories in China that can produce **IMD case, Hybrid case and Pu leather at the same time.**
2. Cases with 4 sides can be made in transparent or pattern styles. With 4 sides in pattern style is more expensive.
3. The patterned case 4 sides **completely eliminate the problem of case yellowing.**
4. Unique double-sided PET+TPU injection molding technology. Although both PET and TPU **are soft, the produced case has a hard back plate like ordinary PC+TPU hybrid case.**
5. In addition to traditional 4-color printing, electroplating, Pantone color, PET coating and other appearance processes are available.
6. **We provide 3 different styles of public molds**

A Lot of PET Printing Processes Available

1.6 X-crystal (Classic Version)

Traditional Transparent Case, Super Cheap Version Available

More Information

1. Popular traditional transparent mobile phone case
2. Common **MagSafe** circle vision, **360 degree rotating kickstand** version, **aluminum** or **PC** camera circle available, more choice
3. We will launch **super cheap** promotional versions
(Except for the 360 degree rotating kickstand version)

1.7 X-CRYSTAL

A Shockproof Case With TPU+PC Material Edge

Super Bumper
Super Tactile

More Information

1. Very simple design, but very strong protection. Protection and tactile combined perfectly.
2. Full-wrapped: provide better protection, edges made with soft TPU and hard PC, which differ with the normal market hybrid case.
3. Back PC plate adopts UV technology, super tactile, scratch-resistant
4. X-CRYSTAL (Full-wrapped Version) : The photos are very ordinary, but you will only know how great this product is when get the actual product. The product looks like GEAR4's Crystal Palace.
5. It is very high-end and very difficult to produce. The quality of this product is the same as GEAR4

1.8 Super Tactile

A Nice Feel Frosted Phone Case

More Information

1. Hybrid molded by soft TPU and hard PC
2. The biggest feature: rubber paint spraying, super tactile
3. Protective camera design
4. Regular MagSafe and 360-degree rotating MagSafe are available
5. Fully transparent back plate available
6. Shiny aluminum camera circle available (transparent back plate)

1.9 Shining Star
